1. PROFILE OF THE INSTITUTE

Kanchi Mamunivar Government Institute for Postgraduate Studies and Research (KMGIPSR), Puducherry is a Government Institution run by the Department of Education, Government of Puducherry, Puducherry, started in 1989 with the objective of imparting higher education at Postgraduate and Research level to the urban and rural students at an affordable cost. Being affiliated to Pondicherry University, it offers 16 PG Programmes and 8 Ph.D. Programmes in Arts, Humanities, Commerce, and Science disciplines. Since 1993, this Institute has been recognized under 2f and 12B of the UGC Act, 1956. In the first cycle, NAAC accredited this Institute at B++ Grade in 2005 and was re-accredited at “A” Grade in the second cycle in 2013. In the third cycle, the Institute was accredited at B++ Grade in 2019. The institute was ranked 49th in 2019, 56th rank in 2020, 50th rank in 2021 and 80th rank in 2022 by NIRF among all the Arts and Science Colleges in India.

University Grants Commission (UGC) had conferred Autonomous Status to this Institute for a term of six years from 2007-08 to 2012-13 and extended the status for the second term till 2018-19. Further, UGC has extended Autonomy for the third term till 2024. In addition, the Institute was bestowed with the status of “College with Potential for Excellence” for a period of five years from 2009-10 to 2013-14 (Phase-I) and got this status extended for a period of another five years up to 2018-19 (Phase-II) and Third Term is in progress.

Since the conferment of the Autonomous status in 2007, the Institute has made remarkable changes in the curriculum and syllabus, incorporating the latest developments in Science & Technology, Soft Computing, Artificial Intelligence & Machine Learning, Big Data and Cloud Computing, Taxation Laws, Government Policy, Industrial Policy, etc. which helped the PG students to compete with the students of other quality higher learning institutions of national as well as international repute across the states in India and elsewhere. The Institute has made a paradigm shift in the curriculum by adopting “Choice Based Credit System” (CBCS) since 2012-13, which enabled both the students and teachers to be more vibrant and versatile in improving the standard and quality of knowledge and skills. The revised CBCS has been implemented from 2019-20 with Soft-Core and Hard-Core courses together with Non-Audit Courses for students’ skill Development systematically upgraded to the level of New Education Policy 2020.

The autonomy of evolving pedagogy helped the Institute to match the need of the industry with the employment market at large thereby enabling the students to enjoy the

benefits of Industry-Institute Interface. This has paved the way for more number of industrial visits and internships that create an important part of the curriculum. The Village Adoption Programme, which forms part of the Institute's extension programme, has resulted in creating awareness among the stakeholders on issues relating to health and environment. The Institute has signed good number of Memorandum of Understanding (MoU), without financial implications help many students to improve their skills. The Academy for Competitive Examinations and NET takes care of coaching and guiding the students for National Eligibility Test (UGC - NET & CSIR - NET) and other competitive examinations. As a result of a higher positive perception of the public on the Institute, the students' intake has been increased considerably based on the demand of the courses in recent years.

Many student and society-friendly activities have been carried out. To mention a few, growing rare herbal and medicinal plants in the campus, Language Laboratory, incinerator facility, Wi-Fi connectivity, CCTV surveillance, an eco-sensitive garden, a fish pond and a natural habitat to shelter birds and pet animals. National Level funded projects are being undertaken by this Institute. The Institute has permanent faculties as per the UGC regulations. Research papers are being published in UGC-CARE listed journals including Web of Science and Scopus indexed with high impact factor. Consistently, student's semester exams result percentage hovers around 95%. Most of our PG students on completion of their programmes are suitably placed in various institutions and industries and some of them pursue further higher studies like research and post-doctoral research programmes.
